We are delighted to announce that the 20th International Conference on Chiroptical Spectroscopy (CD2025) will be hosted by the University of Debrecen, Debrecen, Hungary in 2025. The conference celebrates its 40-year anniversary in 2025 and CD2025 is dedicated to the 100-year anniversary of the birth of Prof. Koji Nakanishi. As in years past, CD2025 gathers leading experts from the field of chiroptical spectroscopy and stereochemistry with the aim to promote exchange of scientific knowledge and strengthen cooperation of research groups. We are looking forward to meeting you in Debrecen, Hungary at the CD2025 accompanied with traditional hospitality, cuisine and sights. Tibor Kurtán and András Perczel (chairs of the Organizing Committee)

Topics to be covered but not restricted to:

- ◆ Chiroptical methods such as ECD, VCD, FDCD, OR, ORD, MCD, ROA, CPL, SRCD,
- ◆ other advanced chiroptical techniques,
- ◆ computational methods and theories,
- ◆ their application on stereochemistry of natural products, polymers, biopolymers, supramolecular systems, nanomaterials,
- ◆ applications on kinetics and dynamic systems,
- ◆ applications on surface chemistry.

The conference venue is the lecture halls of the University of Debrecen in the Learning Center.
