

*** Deadline Extended ***

The International Conference on the Structure of Hungarian is a meeting organized biannually for linguists working on or having an interest in any linguistically relevant synchronic or diachronic aspect of the Hungarian language, approached from theoretical and empirical perspectives.

The 17th ICSH conference will be hosted by the University of Debrecen on 11-12 June 2025. ICSH17 will be accompanied by a special Workshop on New Insights on Demonstratives (NID2025), to be hosted at the same venue on 13 June.

Call for Papers:

Abstracts are solicited for presentations that make a contribution to our understanding of the structure of Hungarian and linguistic theory, including any synchronic or diachronic aspect of syntax and morphology, phonology and phonetics, semantics and pragmatics, as well as their interfaces. Both theoretically and empirically oriented submissions are welcome, including experimental, psycholinguistic and corpus-linguistic treatments of linguistic issues of theoretical relevance. Submissions that analyze Hungarian data from a comparative cross-linguistic perspective are particularly encouraged. We also welcome work that has a general theoretical focus, as well as work with a broader empirical scope involving data from several languages, as long as Hungarian is included in the discussion.

The main session will consist of 30-minute talks (excluding Q&A), and a few short, 15-minute talks are also planned. Submissions will be considered by default for 30-minute talks, unless otherwise indicated during the submission process.

Invited Speakers:

Main session:

Ora Matushansky (SFL, Centre National de la Recherche Scientifique/Université Paris 8)

Markus Pöchtrager (Universität Wien)

Thematic workshop (NID2025):

Elsi Kaiser (University of Southern California)

Submission guidelines

Submissions to ICSH and to the following workshop taken together are limited to one individual and one joint abstract per author, or two joint abstracts per author. Anonymous, maximally two-page abstracts including examples/illustrations and references (with one-inch/2.5cm margins all around, in a font no smaller than 12pt) should be submitted in .pdf format via OpenReview using the following link:

<https://openreview.net/group?id=unideb.hu/ICSH/2025/Conference>

The deadline for submission of abstracts to the conference has been extended to 17 February, 2025 (23:59 UTC time).

Notification of acceptance: by 31 March 2025

Please note that OpenReview has a moderation policy for newly created profiles as follows:

- New profiles created without an institutional email will go through a moderation process that can take up to two weeks.
- New profiles created with an institutional email will be activated automatically.

For more information on the conference, visit the joint webpage of ICSH17 and NID2025:
