WELCOME MESSAGE

On behalf of the ISCAME Scientific and Organizing Committee I am pleased to welcome you to Debrecen for the 11th International Scientific Conference on Advances in Mechanical Engineering organized by the Department of Mechanical Engineering, Faculty of Engineering of the University of Debrecen, the Working Commission of Mechanical Engineering (Specialized Committee in Engineering, Regional Committee in Debrecen, Hungarian Academy of Sciences) and the Scientific Association for Mechanical Engineering. The ISCAME is part of the 11th Mechanical Engineering Days.

The main goal of ISCAME is to yearly bring together engineers working on research, development and practical application in the field of mechanical engineering. Furthermore, the purpose of this Conference is to provide opportunities for scientists and engineers to meet and to discuss current research, new concepts and ideas and establish possibilities for future collaborations in all aspects of mechanical engineering.

I am pleased to inform you that **267 experts** from higher education have registered for this year's conference from altogether **23 countries** representing **39 nations**. In the framework of ISCAME **138 presentations** will be given and **64 posters** will be exhibited.

This year we have invited four experts to give plenary lectures. Our first speaker is **Ana TRISOVIC**, a researcher at the **FutureTech Lab of the Massachusetts Institute of Technology** in the United States. Our second speaker is **Ziad SAGHIR**, a professor at the **Toronto Metropolitan University**, and **Catharinus HELFRICH**, Product Compliance and Reliability Manager at the Dutch bicycle manufacturer **ACCELL Global**. Our fourth speaker is Professor **László TÓTH**, who will introduce us to the science of **structural integrity**. The accompanying program of ISCAME is the **GÉPÉSZ60** exhibition, which presents the mechanical engineering education in Debrecen, which is the same age as the **60-year-old Faculty of Engineering**.

We invite you to be an active participant in this Conference and to contribute to any topic of your scientific interest. We hope that the 11th International Scientific Conference on Advances in Mechanical Engineering will have an important impact on the research in all topics included in its program.

It is also an honour for us to have a privilege to invite you to the 11th Mechanical Engineering Industrial Exhibition and Job Fair. The Department of Mechanical Engineering of the University of Debrecen will host – parallel to ISCAME – the event, called "Mechanical Engineering Industrial Exhibition and Job Fair" where **40 companies** will exhibit. The list of our exhibiting partners can be found at the end of the program booklet. This professional program will surely benefit the visitors who want to get up-to-date knowledge with the latest technology.

We want to express our appreciation to all members of the committees involved in the preparation of this Conference and to all the staff who are managing the different aspects of the Conference and to all the contributing authors and participants who will create the real Conference.

Yours Sincerely,

Tamás MANKOVITS

INFORMATION TO CHAIRMEN, TO PRESENTERS AND TO VISITORS

Chairmen, Presenters and on-line registered Visitors are invited for lunch and coffee, but it is connected to registration at the registration desk at the Aula in the building of the Faculty of Engineering on the Conference days.

To Presenters:

- The official language of ISCAME is English;
- Show up to the session 10 minutes before the session begins;
- Each oral presentation will take 15 minutes including discussion;
- The files required for the presentation (PowerPoint or PDF) must be uploaded and tested in the computer placed in the room before the respective presentation session.

To Poster Presenters:

- The official language of ISCAME is English;
- The Poster Exhibition will be opened on Thursday 6 November, 11:00 and can be visited until 7 November, 14:00. It means from Thursday 11:00 onwards posters can be put on display (Location: Faculty of Engineering, 1st floor, Gallery).
- Poster sessions are scheduled on 7 November, from 11:00-11:30 and 13:00-13:30. At these times anyone interested should be received in front of the posters;
- Posters will be displayed on vertical boards with maximum dimensions of 1000mm (width) x 2000mm (height), the recommended poster size is standard A0 with page orientation portrait.

To Chairmen:
