

III. Fledglings Meeting of the European Ornithological Union

11-13 August 2022
Debrecen, Hungary

Supported by:

Program

Thursday, August 11		
04:30-13:30	Field Excursion – Hortobágy National Park	
14:00-15:50	Registration	
15:50-16:00	Welcome	
16:00-17:00	Plenary: Ádám Z. Lendvai IGF-1 at the crossroads of life-history trade-offs	Chair: Zsófia Tóth
17:00-17:20	Catrin Eden Live long but don't prosper: the population-scale consequences of city life	
17:20-17:40	Rachel McConnell What's on the Menu: Is a City Diet Detrimental to Blue Tit Reproductive Success?	
17:40-19:30	Ice-breaker: Pizza and Poster Night	
19:30	Social Program in Víztorony Bár	

Posters

Ádám Kiss

Conservation of Collared Pratincoles in Hungary: a success story

Nastassia Kisliakova

Studying of shorebirds breeding behaviour and nest success in Turov, Belarus

Valentin A. Kiss

Variability in size and shape of Eurasian Coot eggs (*Fulica atra* Linnaeus, 1758) between 2018 and 2022 in the local conditions of Campenesti wetlands (NW Romania)

Péter I. Fábrián

Are personality differences among individuals related to immunity in free-living Eurasian tree sparrows (*Passer montanus*)?

Friday, August 12		
06:00-06:30	Community Running	
07:00-08:30	Social Foraging - Picnic in the park	
09:00-10:00	Plenary: Tamás Székely The significance of evolutionary research for biodiversity conservation	Chair: William Jones
10:00-10:30	Break	
10:30-10:50	Kristaps Sokolovskis Migration direction in willow warblers follows dominant inheritance mode	Chair: William Jones
10:50-11:10	Eszter Aletta Víg Genetic background of risk-taking toward humans in great tits (<i>Parus major</i>)	
11:10-11:30	Riccardo Alba Avalanches create unique habitats for birds in the European Alps	
11:30-11:50	Carole Niffenegger Effect of environmental conditions on the nest site selection and nestling growth of a high-elevation bird species	
11:50-12:10	Christian Schano Sex-dependent feeding and nest visit behaviour in a climate sensitive high-alpine bird specialist	
12:10-13:40	Lunch	
13:40-14:40	Plenary: Dalia A. Conde Harnessing the data revolution to help slow down the extinction rates: from basic science towards influencing global policies	Chair: Liliana Vassileva
14:40-15:00	Alessandro Berlusconi Caught red-handed: systematic occurrence of kleptoparasitism by red-footed falcon on lesser kestrel	
15:00-15:20	Roman Bühler Prey availability and its influence on habitat selection during the non-breeding period in a sedentary bird of prey	
15:20-15:50	Break	
15:50-16:10	Jakub Hrouda Birds in power-line corridors: effects of vegetation mowing on avian diversity and abundance	Chair: Riccardo Alba
16:10-16:30	Gebreaweria K. Reda Linking dietary restriction and fitness components through IGF-1/mTOR signaling pathway	

16:30-16:50	Karola Anna Barta Effects of learning mistakes, immigration and conformism on complex birdsong cultures
16:50-17:10	Liliana V. Vassileva Preliminary data on DNA Metabarcoding Assessment of the Grey Plover's (<i>Pluvialis squatarola</i>) Diet During Spring and Autumn Migration on the Western Black Sea Coast, Bulgaria
17:10-17:30	William Jones Haemosporidian infections are more common in breeding shorebirds than migrating shorebirds
17:30-18:00	Break
18:00-19:30	Q&A round table with plenary speaker Careers & Publications
19:30-	Social Program in Víztorony bar

Saturday, August 13

06:00-06:30 **Community Running**

07:00-08:30 **Social Foraging - Picnic in the park**

10:00-11:00 **Plenary: Mylene M. Mariette**
The importance of prenatal soundscapes for avian development

Chair:
Kristaps
Sokolovskis

10:00-10:30 **Break**

10:30-10:50 **Vojtěch Brlík**
Sulfur isotopes revealed spatial segregation and climate variability in Eurasian Reed Warblers: a new tool for animal tracing

Chair:
Kristaps
Sokolovskis

10:50-11:10 **Michiel Lathouwers**
Rush or relax: migration tactics of a nocturnal insectivore in response to ecological barriers

11:10-11:30 **Noémi Pallás**
The breeding biology of the European blackbird (*Turdus merula*) in an urbanized world

11:30-11:50 **Tamás Lakatos**
No place for ground-dwellers in cities: a meta-analysis on bird functional traits

11:50-12:10 **Zsófia Tóth**
The relationship between mating systems and spermatozoa characteristics in shorebirds

12:10 **Official Ending**

Conference locations

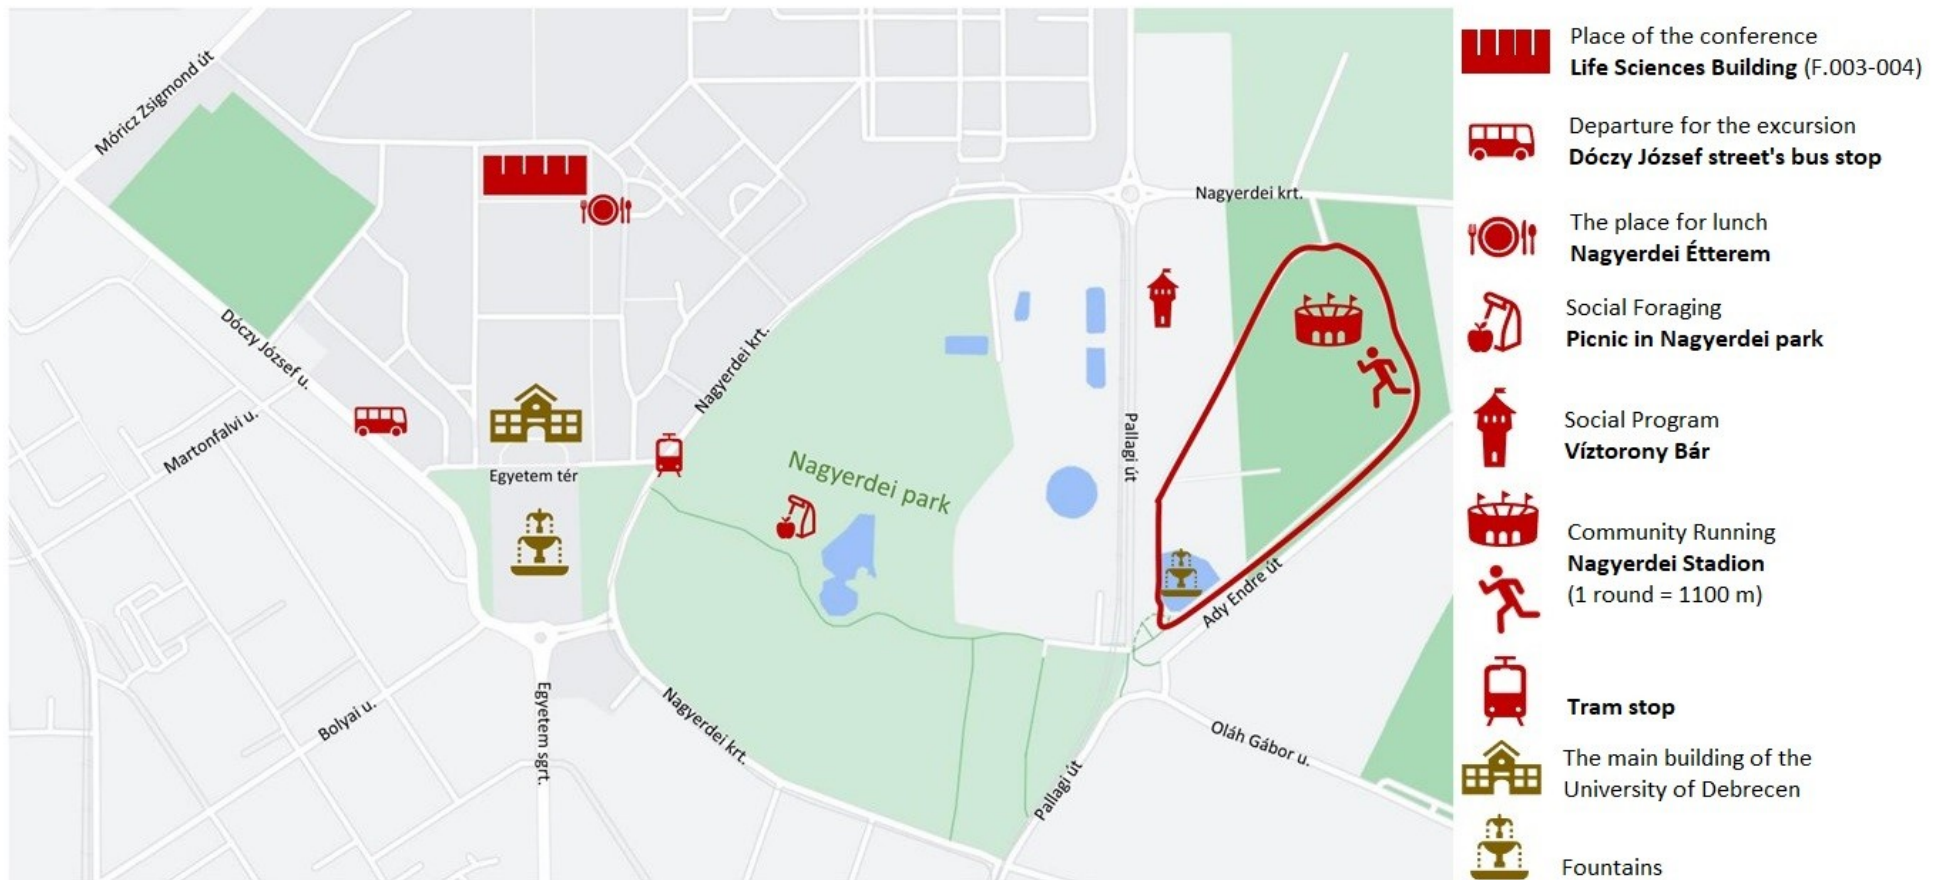

Address:

University of Debrecen

4032 Debrecen,

Egyetem tér 1

Tram line #1 can take you here from the train station.

Community running

Let's fit together. There is a possibility to run/jog/exercise for 30 minutes for our health together. You can find us at the running place in the corner of the fountain at 06:00 am.

Social Foraging

You can pack your breakfast and carry it to the "Nagyerdei park". We can eat together and share our new experiences, discuss the talks from the previous day, or just casually chatting about the "Big Bang Theory".
